The Eliminator HP Series

The HP model is designed to operate economically while creating a safe work environment without compromising containment. By operating at 60 FPM, air flow across the sash opening results in a 40% savings in fume hood operation costs. Features of the HP Series include:

- Passed ASHRAE 110 AM testing with sash in full open position.
- Standard 30" deep work surface for zero work space loss in your lab. Other depths available.
