OVERVIEW

The A-Frame Bench is a robust bench designed to fit perfectly with our A-Frame Table and is ideal for any educational setting. Its straightforward yet durable design features 16-gauge cold-rolled 2" x 2" steel tubing, reinforced by a 14-gauge cold-rolled steel stretcher, ensuring long-lasting use. A non marring levelers foot works well on many surfaces without marring or damage. For cost-effective shipping, the bench will be delivered disassembled, with hardware included for straightforward onsite assembly.

MATERIALS

The A-Frame Bench is constructed using 16-gauge, 2" x 2" cold-rolled steel tubing, and reinforced with a 14-gauge cold-rolled steel stretcher. It comes equipped with leveling glides. The entire assembly boasts a durable powder-coated finish. The 3/4" thick surface can be either phenolic resin or a variety of laminate colors. For economical shipping, the bench will be ship knocked down, complete with all necessary hardware for easy on-site assembly.
