

3" Locking Casters

20' Retractable Cord

Powder Coated Steel
Frame

USB and USB-C Ports

4 Duplex GFI Receptacles

POWER POLE TABLE

OVERVIEW

The Power Pole Table offers both power and a workspace in those hard-to-reach areas of the classroom. Ideal for group activities, its multi-faceted surface comes equipped with four duplex receptacles. This table is designed with a 20-foot retractable power cord, allowing you to place it virtually anywhere within the classroom. Moreover, it provides easy access to USB and USB-C ports for powering and charging devices. Constructed from 16-gauge cold-rolled 2" x 2" tubing and reinforced with 16-gauge cold-rolled steel supports, this table is built to last. The 3" locking casters are suitable for various surfaces, and the straightforward locking mechanism ensures it stays exactly where you need it.

MATERIALS

The Power Pole table is crafted from 16-gauge 2" x 2" cold-rolled steel tubing and reinforced with 16-gauge cold-rolled steel supports, featuring 3" locking casters. The entire assembly is finished with a durable powder coating. For cost-effective shipping, the table will arrive knocked down, with all necessary hardware included for straightforward on-site assembly. The Power Pole is equipped with four duplex receptacles, along with USB and USB-C ports. Additionally, the 20-foot power supply cord is retractable into the housing located beneath the table surface.
